

CEFET/RJ

Beamer Theme for DC v1.1.0

Um template $\text{\LaTeX}$ para apresentações no Cefet/RJ, baseado no UU Beamer Theme

Iniciando os trabalhos

Coloque no preâmbulo e defina o seu metadado:

- `\usetheme{DC}` — **usagem básica**
- `\usetheme[showlogo]{DC}` — **coloca o logo do Cefet/RJ nos slides**
- `\usetheme[nl]{DC}` — **Dutch logo variant**

Para diversos autores, utilize o padrão: `\author / \institute with \and and \inst{n},`
then activate with:

- `\multiauthor`
- `\venue{NeurIPS 2026, Utrecht}` (opcional)

Flags

Passe opções para `\usetheme[...]{DC}`: `nl`, `showlogo`, `nosectionpage`.

Slides especiais

`\standoutframe{...}` para ênfase.
`\thankframe{...}{...}` para fechamentos.
`\sectionframe{...}` divisor manual.
`\closingframe {...}` slide com o logo do Cefet para fechamentos.

Conference Title

`\multiauthor` ativa o layout para múltiplos autores. Use `\addinstitute{n}{Name}` para listar as afiliações (numbered automatically). Call `\clearinstitutes` para resetar.

A flag `showlogo`, ativada nesse exemplo, coloca o logo do Cefet no canto superior direito dos slides.

Esse é uma ativação de \sectionframe

--- Colour Palette

Cores principais

 Yellow #FFCD00

 Red #C00A35

 Black #000000

 White #FFFFFF

Secondary Colours

 Cream

 Orange

 Burgundy

 Brown

 Green

 Blue

 Dark blue

 Purple

Azul do Cefet é uma cor primária. **Vermelho** é usado para chamar atenção. As cores secundárias são para os gráficos.

Tipografia & Blocos

- 1 **Merriweather** (serif) para títulos e aberturas
- 2 Open Sans (sans-serif) para texto do corpo
- 3 Fallback: Palatino + se o pacote de fontes não funcionar

Tip

Instale `texlive-fonts-extra` para um visual autêntico.

Itemize utiliza quadrados marcadores em azul-CEFET em até três níveis:

- First-level items use **yellow** squares
 - Second-level items use **orange**
 - Third-level items use **brown**
- Items can contain **bold**, *italic*, or **alerted** text
- Keep bullets concise

Enumerate uses numbered yellow squares:

- 1 First item
- 2 Second item
- 3 Third item

The theme supports mathematical typesetting [1]:

$$\int_a^b f(x) dx \approx \frac{h}{2} \left[f(x_0) + 2 \sum_{i=1}^{n-1} f(x_i) + f(x_n) \right]$$

Note

This is a note block, intended to grab the reader's attention.

Diagrams & Code

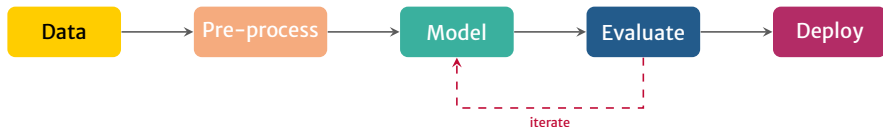

Figura 1: Example process diagram with a numbered figure caption.

TikZ diagrams integrate naturally with the DC colour palette. Use `DCyellow`, `DCgreen`, `DCblue`, etc. directly.

The `listings` package is pre-configured with DC colours. Specify the language and write code verbatim:

```
1 def fibonacci(n):
2     """Return the n-th Fibonacci number."""
3     if n <= 1:
4         return n
5     a, b = 0, 1
6     for _ in range(2, n + 1):
7         a, b = b, a + b # shift window
8     return b
9
10 print(fibonacci(10)) # 55
```

Tables & Figures

Tabela 1: Theme files overview

File	Purpose
beamerthemeDC.sty	Main theme, options, fonts
beamercolorthemeDC.sty	Official DC brand colours
beamerinnerthemeDC.sty	Title page, blocks, special frames
beamerouterthemeDC.sty	Frame title, footline, logo

Pair figures with text using `columns`:

- Left column carries the narrative
- Right column holds the figure
- Caption is numbered automatically

Use `[T]` on `columns` to top-align both sides, and `\centering` inside the figure.

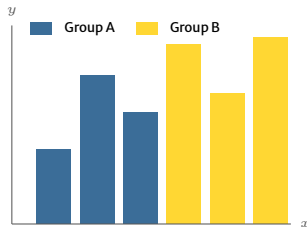

Figura 2: Sample bar chart with DC colours.

Sharing science,
shaping tomorrow

Closing

- 1 Blue-driven design, just as the DC likes it
- 2 Merriweather + Open Sans, 10pt body text by default
- 3 Special frames: `\standoutframe`, `\thankframe`, `\closingframe`, `\sectionframe`,
- 4 Options: `nl`, `showlogo`, `nosectionpage`
- 5 Multi-author slides: `\addinstitute{n}{Name}` + `\multiauthor`
- 6 Syntax-highlighted code via `lstlisting` with DC colours
